Company

MyDeals Group LLC is a SAM-registered small business (self-certified) in Audubon, PA — Greater Philadelphia providing enterprise-transformation, data-platform, and AI-native software delivery services, plus specialized product sourcing through authorized channels. Founder-led with 20+ years of enterprise SAP, Order-to-Cash, and large-scale ERP program experience across global manufacturing and technology organizations.

Core capabilities

- **Enterprise technology** — enterprise architecture, ERP/SAP transformation, application modernization, systems integration, program leadership
- **Data & analytics** — data architecture, modernization, governance, quality, analytics, scenario modeling & simulation
- **AI & intelligent systems** — AI-enabled workflows, intelligent automation, decision-support systems with human accountability
- **Software engineering** — custom, cloud-native, data-intensive, audit-oriented applications and APIs
- **Federal program delivery** — program management, technical leadership, delivery governance; specialist staffing through partners
- **Specialized product supply** — authorized OEM/distributor sourcing with origin & compliance documentation (through partners)

Differentiators

- Principal-level accountability — customers work directly with senior leadership
- Working product evidence — we design, build, and operate our own AI-enabled enterprise platform (Aurgus)

- Enterprise experience with small-business speed and cost discipline
- Honest scoping — capabilities labeled current, through-partner, or planned; no inflated claims

Status

Small Business (self-certified) · Minority-
Owned (self-reported in SAM) · CMMC Level 1
self-assessment (SPRS, valid to 2027-08-10)

Past performance

MyDeals Group LLC is an early-stage federal contractor. We do not claim corporate federal past performance, and we do not present the founder's prior enterprise experience as corporate contract history. Where a requirement calls for demonstrated past performance at scale, we team with established partners and say so plainly.
